Oral exam description

Distribution

- The oral exam distribution is 5 percent.
- The project distribution is reduced from 20 to 15 percent.

Description

1. The oral exam will be conducted once for each group.
2. Use the same project group.
3. A representative will be selected randomly from each group.
4. The representative will be answering random related questions from the professor, like in an interview.
5. The questions can be from any of the lectures in the course.
6. Please make sure everyone in your group stays ready, so you don't lose points, no matter who gets selected. For that to happen, study in your group and help reinforce each other's knowledge.
